

## Imagination activity

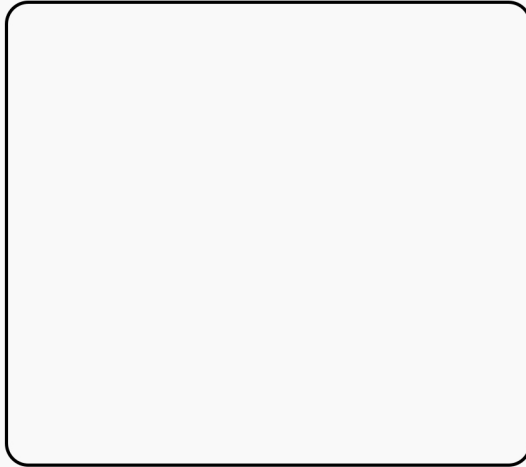

The Avengers are great at working together as a team.

Think about the people in your life - your family, your school, your village or town, and create a special team of different people you know, who could work together to save the world.

Giving each one a superhero name, why not create Top Trumps cards, which shows the great things about them all (people or animals!). Give each feature a number, score or value. Draw a picture of them too!
